

CACI Knowledge Management Applications

The CACI / Oracle Portal Advantage

April 2004

Architecture

- ❑ Oracle 9i Application Server (9iAS)
 - ❑ Portal infrastructure
 - ❑ Single Sign-On
 - ❑ Integrated LDAP security
 - ❑ 128-bit SSL encryption
 - ❑ Oracle 9i Database
 - ❑ "Unbreakable Oracle"
 - ❑ Provides stable, proven back-end services
-

CACI Advantages

- ❑ Oracle Portal (9iAS) environment proven in multiple production instances supporting US Army and government customers
 - ❑ While Oracle 9iAS provides standard portal features, custom developed and customized applications provide intuitive, focused, and easy to use tools tailored to the unique organization requirements
 - ❑ Existing staff consisting of developers, database administrators, system architects, web developers, with proven Oracle Database and Portal experience
 - ❑ The following slides capture a glimpse into existing production and developmental portal environments, all based within the Oracle 9iAS framework.
-

Welcome to the Genesis II Portal

Department of Defense Security Warning

This U.S. Government Interest System is accredited for UNCLASSIFIED and authorized use only. Do not enter, process, store, transfer, or transmit classified or sensitive information above the level of this system. DOD networks may be monitored for all lawful purposes, including to ensure their use is authorized, for management of the system, to facilitate protection against unauthorized access, and to verify security procedures, survivability, and operational security.

All information, including personal information, placed on or transmitted over this system, authorized or unauthorized, constitutes consent to monitoring. Unauthorized use of this DOD system may subject you to criminal prosecution. Evidence of unauthorized access collected during monitoring may be used for administrative, criminal, or other adverse action.

Use of this system constitutes consent to monitoring for all lawful purposes.

Genesis Portal Quick-Start User's Guide

Quick-Start User's Guide

The Genesis G4 Portal provides a centralized, personalized and customizable view of all aspects of contract and financial information. Genesis is a secure, web-based system that can be accessed anytime & anywhere, when an internet connection is available.

Who uses Genesis G4 Portal? Authorized Genesis personnel: project coordinators, managers, customers, employees, subcontractors, and support staff.

The Genesis G4 Portal is an unclassified system. This quick reference guide provides instructions on how to use the Genesis G4 Portal.

What's Available in Genesis

- Scheduling
- Financials
- Security
- Personnel
- Contract Information
- Document Repository

Key Concepts

This Portal is a gateway to all Genesis modules and services. Portal pages are subsections of the portal to which you can navigate using the tabs. Portlets are containers inside pages. Genesis portlets are indicated by either a solid or faded header bar.

NOTE: The tabs each user sees on Genesis will vary as each user's privileges and group memberships are different.

Genesis Online G4 Portal centralizes and manages military construction efforts through automated capabilities. An easily accessible online repository contains applicable requirements, regulations, schedules, and construction graphics.

Genesis Online G4 Portal Integration:

- Real Time Resource Planning.
- Use of automated tools to expedite research, reporting, and status updates.
- Archives to include prior Site Surveys
- CAD Drawing Repository

G2 ONLINE

Intelligence Support Services

G2 Online has been recently deployed supporting US Army Europe G2 in managing the Intelligence Support Services contract.

Detailed resume information, new hire processing, performance metrics, and document repositories are available online to teammates and the government customer.

C4ISR Special Projects Office Information Center provides the research organization the ability to collaborate amongst contractors, PMs, Project Offices, and other research entities enabling streamlined processes for standing up real-world demonstrations utilizing leading edge Army, Navy and Air Force assets.

The Quick Reaction Deployment Tracking System supports INSCOM G4 in tracking worldwide shipments of materiel in support of an operation. Providing FedEx/UPS-type visibility into shipped packages, users can know when to expect critical equipment vital to the deployment.

Information is entered by users in the field using either a web-based interface or by telephoning key data to a logistics specialist CONUS.

The Federal Highway Safety Administration online project management portal environment provides the contractor team an online collaboration environment.

Additional features such as online context sensitive help and a quick start user guide provide user assistance when necessary.

What is BMI-SG Team - FHWA Online Project Management Resource Portal?

The BMI-SG Team - FHWA Online Project Management Resource Portal is a web-based portal system designed to serve as a team online coordination and project management status resource for the BMI-SG/FHWA Safety Office IDIQ contract.

Within this is essentially an information resource for BMI-SG team members-- and FHWA -- to expertise available for projects.

The BMI-SG Team - FHWA Online Project Management Resource Portal provides a centralized personalized and customizable view of all aspects of contract and project information. BMI-SG Team - FHWA Online Project Management Resource Portal is a secure, web-based system that can be accessed anytime & anyplace, when an internet connection is available.

Who uses BMI-SG Team - FHWA Online Project Management Resource Portal? Authorized BMI-SG Team - FHWA Online Project Management Resource Portal personnel, project coordinators, managers, customers, employees, subcontractors, and support staff.

The BMI-SG Team - FHWA Online Project Management Resource Portal is an unclassified system.

This help system provides instructions on how to use the BMI-SG Team - FHWA Online Project Management Resource Portal.

Currently at <http://www.fhwassafety.com>. You must have a user ID and password.

Site Overview

Quick-Start User's Guide

The BMI-SG Team - FHWA Online Project Management Resource Portal is a web-based portal system designed to serve as a team coordination and collaboration site.

Who uses the BMI-SG - FHWA Online Project Management Resource Portal? Authorized BMI-SG Team - FHWA Online Project Management Resource Portal personnel, project coordinators, managers, customers, employees, subcontractors, and support staff.

The Quick-Start User's Guide provides instructions on how to use the BMI-SG Team - FHWA Online Project Management Resource Portal.

What's Available in the Site?

- Complete Help System
- Resource Database
- Project Management Regions
- Team Collaboration Regions
- Team Coordination Regions

Key Concepts

Portal pages are subdivisions of the entire site which you can identify using the Site Overview page.

Change Your Password

You may change your password to enhance security. Please change your password the first time you log in. Thereafter, you will be prompted to change your password quarterly.

- Click the Change Password link on the upper right.
- Enter your old password.
- Enter your new password twice.

Add Text to the Site

- Click Add.
- Click the Add Item button.
- Select Text on the left Type drop-down menu.
- Type your message. You may Format the Text using the Format button above the text input box.
- Click Post.

Add Action Items

- In the Action Items portal, click Show All Action Items.
- A new window with all the Action Items will appear.
- Click Add on the bottom left. The window will expand.
- Enter a Description, Detail, Assigned to, Suspense Date in SCAMA-11 Format, for example 08-OCT-03, Date, Priority, and Category.
- Click Add.

Online Financial Management System provides real-time view into project costs, forecast, and commitments.

- Transaction-level detail for Labor, Subcontractors, Materials, Travel, HOLA/COLA, etc.
- Customized and ad-hoc reporting tools
- 24/7 web-based access
